12	<u>Course Delivery</u> Residential Delivery All courses are taken at the School or at the clinical facilities located in Illinois. ATS offers residential courses. From March of 2020, under the temporary state permission, ATS offers all courses via distance education. Distance education courses are delivered through ATS learning management system, Bright Space. Students are expected to attend their virtual classrooms through Zoom as specified on their schedule, equivalent to the residential delivery. All attendance is monitored. Students must complete a class assignment to be counted as present for that date. An orientation course is available to help students improve their computer and Internet skills. Personal desktop or laptop computer with internet access is required for students in online programs. See Minimum Computer System Requirements policy.	<u>Course Delivery</u> Blended Delivery All courses are approved for blended delivery. This includes online live sessions, asynchronous sessions, in person campus sessions, and on site clinical components. All in person campus and on site clinical sessions are located in Illinois. Blended education courses are delivered through the ATS learning management system. Personal desktop or laptop computer with internet access is required. See Minimum Computer System Requirements policy.

Students must complete all required attendance components in the course, clinical and laboratory sections to which they have been assigned.

		<p>A student is considered “present” in an online session (or the online portion of a hybrid/blended course) by participating in class <u>and</u> completing the assigned academic related activity. The activity is set by the instructor and can vary by session. Examples of such activity include but are not limited to: contributing to an online discussion, submitting an assignment; working through exercises; taking a quiz or exam; completing an interactive tutorial or computer-assisted instruction.</p> <p>Failure to complete the assigned academic related activity by the established due date is interpreted as an absence from the class. All courses have limited absence allowance. Surpassing absences could result in program dismissal. Refer to course syllabi for absence details.</p>
13	<p><u>Class Attendance</u></p> <p>Attendance is mandatory. Students who acquire absences that exceed 10% of a course’s scheduled hours will fail the course and will receive a failing grade WF for the course. Missing assignments that correlate to excused missed class material may be assigned.</p>	<p><u>Class Attendance</u></p> <p>Attendance is mandatory. 13	<p><u>Exam Make-Up</u></p> <p>Students are expected to arrive 10 minutes prior to exams. To avoid disruption during examination time, students will not be allowed entrance after the start of the exam. Students who are absent or arrive late for exams may be allowed a make-up exam if an extenuating circumstance has occurred and faculty are notified in advance when possible. Valid documentation is required.</p> <p>Failure to notify faculty in advance can result in a "no call, no show" for the exam time and the student will not be allowed a makeup. All requests for makeup must be initiated by the student with the faculty as soon as possible and the make-up exam is expected to be taken before the next exam time. Once scheduled, make-ups cannot be cancelled and rescheduled unless another extenuating circumstance has occurred, and faculty are notified in advance or no less than 24 hours of rescheduled exam time. Make-up in these situations must occur within a week. A grade of zero shall be given if unable to come for make-up exams or rescheduled make up exam, there is no exception, and this is not appealable.</p> <p>To qualify for an extenuating circumstance, students must notify faculty no later than 24 hours after the exam time. 25	<u>Academic Fraud</u>	<u>Academic Fraud</u>

<p>Academic Fraud is any type of cheating or misrepresentation that occurs in relation to online or on-ground classes. It can include:</p> <ul style="list-style-type: none"> ● Plagiarism: The adoption or reproduction of code, ideas, words, or statements of another person or author without due acknowledgment. ● All parties to plagiarism are considered equally guilty. If a student shares the student coursework with another student and it is plagiarized, that student is considered as guilty as the plagiarizer; since that student enabled the plagiarism to take place. Under no circumstances should a student make the student coursework available to another student unless the instructor gives explicit permission for this to happen. ● Fabrication: The falsification of data, information, or citations in any academic situation. ● Deception: Providing false information to a representative of the School concerning an assignment, mock interview, or class—e.g., giving a false excuse for missing a deadline or falsely claiming to have submitted work. ● Cheating: Any attempt to give or obtain assistance in any class assignment(s) (like an examination) without due acknowledgment. ● Sabotage: Acting to prevent others from completing their work. ● Falsifying Records and Official Documents: Forging signatures or falsifying information on official academic documents such as forms, petitions, letters of permission, or any other official internal or external document. ● Investigation: Students are entitled to a full investigation. The faculty/instructor will alert the Academic Integrity Committee and Program Administrator who will investigate the policy violation claim. Once the claim has been verified or unsubstantiated, the parties involved will be informed in writing. ● Sanctions for Violating the Academic Honesty Policy ● A student found in violation of the Academic Honesty and Integrity policy will be subject to disciplinary action by the Academic Integrity Committee. ● For the first violation in a program, the student will receive a zero on the assignment and a written warning and may go on Academic Probation. ● If a second violation occurs the student will be removed from the program. Disciplinary action will be determined by the Academic Integrity Committee. Dismissal from the program under this policy will be considered an academic dismissal and not subject for re-entry. 	<p>Academic Fraud is any type of cheating or misrepresentation that occurs in relation to any academic component.</p> <p>Academic Fraud violations will result in the following:</p> <p>Immediate dismissal</p> <ul style="list-style-type: none"> ● Plagiarism: The adoption or reproduction of code, ideas, words, or statements of another person or author without due acknowledgment. ● All parties to plagiarism are considered equally guilty. This includes:</p> <ol style="list-style-type: none"> 1) Courses designed to improve English skills, including speaking and writing. 2) Courses designed to improve study skills as remedial courses if schools require students with a defined need to take them. 3) Developmental courses include ENG930, ENG935, and MAT930. (previously numbered as ENG0911, ENG0913, MAT0915) <p>ATS Institute of Technology may require remedial/developmental courses for students who did not meet the nursing course benchmark. This need is determined by the prospective Veteran Students’ Entrance Exam results (see Entrance Exam and Course Placement policy)</p>

Developmental Courses are not considered for credit

While the amount of credit per term granted may vary in accordance with a Student's assigned Plan of Study, schools must initially certify the minimum amount of credit that students can earn per term to the VA administration. When each term is over, the schools must certify the **actual** amount of credit the students earned if different from the amount originally certified.

Note for VA student taking Developmental courses:

There are no credits assigned, earned/tried and/or allotted for the Developmental courses. Therefore, there are no credits that can be certified to the VA administration for these specific courses. Specifically, a semester with ONLY developmental courses will have no credits that can be certified to the VA for the term.

This may decrease the Veteran Students expected MHA benefit (Monthly Housing Allowance) in the first term.

The student will still be certified for all other remaining classes with credits assigned to them during the first term- Resulting in less than full time credit hours being reported to the VA administration upon enrollment by the School Certifying Official.

GI Bill® Benefits and MHA (Monthly Housing Allowances) are solely determined as payable or not payable for the Veteran Student by the VA administration. ATS Institute of Technology and the School Certifying Official, do not dictate or rule the student's eligibility for a MHA benefit and or benefit levels.

The student may expect to be certified again, for full time credits in the second term. This is contingent that they have completed/passed all Developmental courses in the first term and do not have a need to repeat the Remedial/Developmental courses again.

VA Benefits after withdrawal:

When a student receiving veteran benefits is withdrawn from school the student education benefits will be discontinued. For students in the GI Bill® program - educational benefits will be discontinued, pursuant to 38 U.S.C. 3474 when the veteran or eligible person ceases to make satisfactory progress and is placed on financial aid suspension.

		<p>Students receiving veteran’s education benefits are responsible to be aware of and maintain academic progress requirements established by the U.S. Department of Veteran Affairs for benefit eligibility.</p> <p><i>GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA).</i></p> <p>More information about education benefits offered by VA is available at the official U.S. government Web site at http://www.benefits.va.gov/gibill</p>

Course Descriptions for Practical Nursing Curriculum

The following lists active courses as of Fall 2021, replacing any previous course descriptions

BIO1018 Human Anatomy and Physiology II*

3.5 credits

Course Description:

This is the second course in the series that studies the structure and function of the human body using the integrating principle of homeostasis. Metabolism of carbohydrates, proteins, and lipids along with elimination of waste products is discussed. Emphasis is placed on the following organ systems/topics: cardiovascular, lymphatic, immune, respiratory, endocrine, digestive, urinary, and reproductive systems as well as fluid/electrolyte balance, acid/base balance, pregnancy and growth & development. This course includes additional clock hours outside of theory and Theory application lab hours.

Prerequisites:

BIO1017 Human Anatomy and Physiology I

Co-requisites: None

*This course only applies to students who completed BIO1017 and will no longer be offered following the Fall 2021 semester

BIO1090 Human Anatomy with Medical Terminology

6 credits

Course Description:

This course studies the structure and function of the human body using the integrating principle of homeostasis and utilization of medical terminology for nursing students. Organization of the human body, organs, and systems are discussed. Emphasis is placed on the following organ systems/topics: integumentary, skeletal, muscular, nervous, senses, cardiovascular, lymphatic, immune, respiratory, endocrine, digestive, urinary, and reproductive as well as fluid/electrolyte balance, acid/base balance, pregnancy and growth & development and nutrition. This course includes additional clock hours outside of theory, theory application lab hours, and medical terminology activities.

Prerequisites: Placement into the nursing program by achieving required benchmark on TEAS exam.

Co-requisites: None

NUR1090 Art of Nursing*

1.50 credit

Course Description:

This course helps the student adjust to the role as a student nurse, understand the nursing profession and prepare for successful practice through demonstration of essential nursing concepts such as caring, spirituality, presence, compassion, self-care and advocacy. This course will help the student with communicating effectively and preparing for the NCLEX-PN through good study and test taking skills. This course includes additional clock hours outside of class time.

Prerequisites: None

Co-requisites: None

*This course applies to all incoming students in Fall 2021 and thereafter.

NUR1095 Nursing Fundamentals with Pharmacology

11.5 credits

Course Description:

This course utilizes research from the National Council of State Boards of Nursing (NCSBN) activities of safe nursing practice for the Licensed Practical Nurse (LPN) and the NCLEX PN test plan to provide a framework for this course. The course focuses on safe clinical decision making based on evidence-based practice for all body systems including basic skills, pharmacology, laboratory, simulation and clinical experiences for learning. Variations across the lifespan are considered. This course requires successful completion of concurrent lab and clinical hours and includes additional clock hours outside of class time.

Prerequisites: Placement by achieving required benchmark on TEAS exam

Co-requisites: BIO1090 Human Anatomy with Medical Terminology or BIO1018 Anatomy and Physiology II

NUR1102 Pharmacology

3 credits

Course Description:

This course provides the student with content relevant to the use and administration of drugs in nursing practice. It includes information about drug classifications and pharmacokinetics. Variations across the lifespan are considered. Students learn the importance of drug actions, interactions, side effects and nursing implications. Students learn the components of patient teaching and assisting in patient self-administration of drugs. This course includes additional clock hours outside of theory and has a lab component.

Prerequisites: NUR1101 Nursing Fundamentals

NUR1003 Critical Thinking Lab*

2 credits

Course Description:

This course provides students with knowledge to implement the theoretical perspectives on, and practical reality of, making judgement and decisions in the best interest of patients and clients. This course will enhance the student cognitive processes which underpins safe and effective care delivery in the healthcare setting. Through clinical reasoning exercises, this course will assist the student with developing a complex cognitive process that uses formal and informal thinking strategies to gather and analyze patient information, evaluate the significance of this information and weigh alternative actions. This course includes additional clock hours outside of theory.

Prerequisites: NUR1001 Clinical Judgement for the PN, and NUR1101 Nursing Fundamentals

*This course only applies to students taking NUR1109 in the Fall 2021 semester. This course will no longer be offered past the Fall 2021 semester.

NUR1100 Critical Thinking

3 credits

Course Description:

This course provides students with knowledge to implement the theoretical perspectives on, and practical reality of, making judgement and decisions in the best interest of patients and clients. Theoretical input will be supported by case study exploration and reflection and allow students to explore the complexity of clinical decision making and judgement within the healthcare industry. This course will enhance the student cognitive processes which underpins safe and effective care delivery in the healthcare setting that uses formal and informal thinking strategies to gather and analyze patient information, evaluate the significance of this information and weigh alternative actions. This course includes additional clock hours outside of theory.

Prerequisites: NUR1090 Art of Nursing, NUR1095 Nursing Fundamentals w/intro to Pharmacology

NUR 1109 Nursing Care of the Adult I

9.5 credits

Course Description:

This course builds on concepts and skills learned in Fundamentals of Nursing. Students will apply the nursing process when learn how to care for adult medical-surgical patients and their families experiencing complicated chronic or an acute alteration in health. Research from the National Council of State Boards of Nursing (NCBSN), activities of safe nursing practice for the LPN, the NCLEX Test Plan and reinforcement of clinical reasoning and clinical judgment skills are incorporated in this course. This course requires successful completion of concurrent lab hours and includes additional clock hours outside of class time. This course runs concurrently with Critical Thinking Lab.

Prerequisites: NUR1090 Art of Nursing (students entering Fall 2021 and thereafter) or NUR1001 Clinical Judgement for the PN (students who completed first semester nursing courses prior to Fall 2021), and NUR1095 Nursing Fundamentals with Pharmacology (students entering first nursing semester Fall 2021 and thereafter) or NUR1101 Nursing Fundamentals (students who completed first semester nursing courses prior to Fall 2021).

NUR 1105 Nursing for the Family and Nursing for Children

4 credits

Course Description:

This course focuses on maternity nursing care of the woman during her maternity cycle and her family including pediatric nursing care of the child across the lifespan through adolescence. The nurse's teaching, caring, communication, and critical thinking roles are discussed and used with application to the nursing process as appropriate to the Licensed Practical Nurse scope of practice. The care of families experiencing issues of psychological, cultural, and spiritual needs is explored.

This course requires successful completion of concurrent lab hours and includes additional clock hours outside of class time.

Prerequisites: NUR1090 Art of Nursing (students entering Fall 2021 and thereafter) or NUR1001 Clinical Judgement for the PN (students who completed first semester nursing courses prior to Fall 2021), and NUR1095 Nursing Fundamentals with Pharmacology (students entering first nursing semester Fall 2021 and thereafter) or NUR1101 Nursing Fundamentals (students who completed first semester nursing courses prior to Fall 2021).

NUR 1121 Nursing Care of the Adult II

9.5 credits

Course Description:

This course is a continuation of concepts and skills learned in Nursing Care of Adult I. Students will apply the nursing process when learning how to care for adult medical-surgical patients and their families experiencing complicated chronic or an acute alteration in health. Research from the National Council of State Boards of Nursing (NCBSN), activities of safe nursing practice for the LPN, the NCLEX Test Plan and reinforcement of clinical reasoning and clinical judgment skills are incorporated in this course. This course requires successful completion of concurrent lab and clinical hours and includes additional clock hours outside of class time.

Prerequisites: NUR1109 Nursing Care of the Adult I or NUR1110 Nursing Care of the Adult I

Co-requisites: NUR1003 Critical Thinking Lab or NUR1100 Critical Thinking

NUR 1128 Nursing Care of the Older Adult and Nursing for Mental Health

5.5 credits

Course Description:

This course focuses on nursing care of the older adult and clients with mental health issues. Emphasis is placed on the role of the Licensed Practical Nurse and his/her contribution to the nursing process in meeting the physiological, psychosocial, cultural, and spiritual needs of older adult clients, mental health clients, and their families. Critical thinking skills and a caring manner are used in nursing care delivery, coordination, collaboration, and documentation. Clinical experience is a component of this course that allows the student to demonstrate effective communication skills with the client and clinical staff and the appropriate use of the nursing process in the delivery of nursing care to the older adult client and the mental health client. This course requires successful completion of concurrent lab and clinical hours and includes additional clock hours outside of class time.

Prerequisites:* NUR1090 Art of Nursing or, NUR1095 Nursing Fundamentals with Pharmacology

*For students who entered their first nursing semester prior to Fall 2021, prerequisites are as follows:

NUR1101 Nursing Fundamentals

NUR 1114 Nursing Seminar - Transition to Practice

1.5 credits

Course Description:

This course builds upon previous nursing courses for the acquisition and application of nursing theory necessary for safe, patient-centered nursing care of diverse patients across the lifespan while integrating legal and ethical responsibilities of the Practical Nurse. This is a milestone course that prepares students for practice. At the conclusion of the course, students will demonstrate proficiency in Fundamentals, Pharmacology, and Medical-Surgical by testing and successful remediation. **For students who entered their first nursing semester prior to Fall 2021, prerequisites are as follows:*
NUR1101 Nursing Fundamentals, NUR1110 Nursing Care of the Adult I, NUR1105 Nursing for the Family and Nursing for Children, NUR1102 Pharmacology, NUR1003 Critical Thinking Lab, NUR1001 Clinical Judgement for the PN.

Co-requisites: NUR1121 Nursing Care of the Adult II or NUR1120 Nursing Care of the Adult II, NUR1128 Nursing Care of the Older Adult and Nursing for Mental Health

Developmental Courses

(Developmental Courses are not considered for credit)

ENG0930 Reading and Mastering Study Skills

0 credits

Course Description:

This course prepares students for college-level courses and exams that require the ability to read comprehensively and think critically. Students will learn in-depth methods of applying reading concepts, study strategies and critical thinking skills to college-level content texts. Group discussions and other in-class activities will allow students to: develop their study and comprehension skills, analyze critically what they have read or seen, acquire new vocabulary in context, articulate their inferences, and refine their ideas for individual writing assignments. Students will learn how to apply these strategies across the ATS curriculum. Students will use computers to document their in-class and home assignments.

Prerequisites: None

ENG0935 Writing Strategies

0 credits

Course Description:

This course enhances and refines students' writing skills and develops their ability to use formal English. Students will learn to express their ideas clearly and precisely in complete sentences that comply with the standards of English grammar. Students will compose intelligible sentences free of serious errors in grammar, organization, and style. Students will use computers to document their assignments and practice skills. Students will learn how to edit their own writing for grammatical correctness and revise paragraphs and essays for unity, logic, coherence, and completeness.

Prerequisites: None

MAT0930 Basic College Math

0 credits

Course Description:

This course provides students with basic math skills required for success in college education. This course covers basic computational math and high school algebra including, but not limited to, ratios and proportions, and metric. Students are shown many methods to sharpen their math skills and are provided multiple opportunities to practice those skills. Refreshing their knowledge of learned math will be an important part of the course.

Prerequisites: None
